

CO2 Neutral label certificate

Robberechts NV LABEL - BRONZE LEVEL

ROBBERECHTS

Client reference: N° 24/130

Certification start date: 04/06/2024

Certification end date: 04/06/2025

CO2logic certifies that Robberechts has calculated the carbon footprint for their production site at Turnhout Belgium (incl. offices, production hall, showroom and reception), set up a concrete reduction plan and offset remaining emissions (**853 tCO2**) by supporting certified climate projects.

The operational scope of work covers scope 1 and scope 2 emissions for **2023**.

Robberechts commits to remain best in class for reducing its emissions and to further decrease the impact of its production sites as follows:

- Evaluating investment opportunities to further reduce emissions of heating
- Continuing to monitor and optimize the power consumption of machinery and equipment (e.g. through software)
- Further decreasing its mobility emissions through electrification of the car fleet
- Yearly offsetting remaining emissions through certification carbon credits

Every CO2 Neutral label is reviewed and validated by Vinçotte, an independent international certifying authority. Through an in-depth audit, Vinçotte controls the implementation of the CO2logic approach: calculate, reduce and offset CO2 emissions.

All information related to the CO2logic approach and the certification process can be consulted on our dedicated website www.co2-neutral-label.org and all the information related to this climate journey is made available through the individual QR code present on the label:
